

Butterfield Trust (Asia) Limited

We are pleased to announce that Butterfield (Singapore) Pte. Ltd., will be operating under a new name: Butterfield Trust (Asia) Limited. The change of name recognises the trust and fiduciary services we provide throughout Asia, and reflects the value we place on our client relationships. Our position as an independent trust company, backed by a strong and supportive parent group, means we are uniquely placed in the international market.

With a history dating back to the eighteenth century, Butterfield Trust offers a unique blend of heritage, experience, expertise and dedication to support the requirements of our clients. We provide the resources necessary to fulfil every aspect of our duty of care as independent fiduciaries, working with a wide selection of banking, investment and advisory partners, today and in the future, to arrange the best solutions for our clients.

Above all, we will give the peace of mind that comes from working with one of the world’s oldest and most respected trust specialists. We are confident that as our relationships develop, the more that clients and their advisers will get to know and appreciate the reassurance that comes from partnering with Butterfield Trust.

Dedicated to the trust business.

We’ve been doing this for over 80 years, and we are in this for the long term. Over the last five years we have made major acquisitions in Guernsey, the Cayman Islands, Bermuda and Singapore.

Professional.

Our well-respected teams work diligently with your legal and tax advisers to ensure that structures are effective and compliant with the latest laws and regulations.

Multi-jurisdictional.

Our broad international footprint ensures that you can be served from the most appropriate jurisdiction. We are also able to accommodate cross-jurisdictional requirements where appropriate.

Multilingual.

Our offices can provide you with services in a wide range of languages including English, Mandarin, Malay, Hokkien, Cantonese, Spanish, French, German and Portuguese.

Experienced with wide-ranging assets.

We administer a wide range of assets including cash, securities, residential and commercial real estate, private business, yachts, aircraft, art collections, chattels, intellectual property and image rights. We work closely with a wide variety of investment managers and banks.

The best of both worlds.

The strength of our parent group and support for the provision of fiduciary services offers the best of both worlds: the advantages of financial security, corporate governance and risk management alongside rapid, independent decision making, and the dexterity necessary to manage complex assets.

Clients and their advisers want to be sure that their Trustee will always have the competence, resources and resolve to overcome whatever challenges lie ahead. It takes understanding, commitment and sophisticated professional expertise to create and administer a solution robust enough to withstand the challenges that may be faced.

Butterfield Trust provides that reassurance.

As Trustee, Butterfield will act in the beneficiaries' best interests now and in the long term. Our duty of care extends beyond our fiduciary responsibilities to providing stability in an uncertain world, and offering peace of mind today and for decades to come.
